

ENTRAIN

COMPREHENSIVE COST EFFECTIVE
NURSING TRAINING SOLUTION

ENTRAIN

Training of Trainers (ToT) Program

Is a permanent solution that:

- Implements a *skill-focused* nursing CNE
- Provides *uniform evidence-based* learning content
- Facilitates bedside training as a *daily activity*
- Promotes best nursing practices at the *point of care*

ENTRAIN is not just a training program!

It aims to bring about a transformation in nursing care to provide safe and high quality patient care

Hence, we deliver the ENTRAIN programme in 3 phases:

1 Training of Trainers (ToT)

SkillsForMED empowers trainers by providing:

- *Learning content* for best nursing practices
- *Skills and resources* for teaching and training
- *Validated tools* to assess nursing competency

2 Measuring baseline competency levels

Your trainers will observe staff at point of care to:

- Identify the current level of nursing competency
- This provides a baseline data to improve upon

3 Merging ENTRAIN into your CNE

Your trainers will train the staff using our:

- Online learning content
- Workshop methodology and tools
- Procedure manual

Changing the culture

SkillsForMED provides tools to sustain this program and bring about a culture change:

- Learner progress sheet
- Trainer progress sheet
- Competency data of individual staff

This data-driven approach helps the nursing leaders to implement best nursing practice at the point of care.

ENTRAIN Implementation

- Improves nursing communication skills.
- Ensures quality nursing around the clock.

Increases Nursing Competency by 200-300%

Improvement with SkillsForMED training in a 200-bed multi-speciality hospital in South India

An Invitation...

SkillsForMED was founded in 2018 with the intent of enhancing nursing skill levels in our hospitals to provide safe patient care. Over the years, we have interacted with several nursing leaders and frontline staff and have evolved a system to implement a skills-focused CNE for hospitals with proven improvement in skill levels. We need to take this to more hospitals...

We invite you to be our partner in this journey of upskilling your frontline nursing staff to provide high-quality and safe patient care!

If you need more information on any of our courses, email us.

Better still call us and we will be happy to talk to you!
